SUMMARY

Software Developer with **1.5+ years** of experience in building scalable and responsive web applications using React.js, Node.js, Express.js, and MySQL. Strong expertise in frontend development, component-based architecture, and state management using Redux Toolkit and TanStack Query. Experienced in integrating RESTful APIs and working with modern UI libraries such as Material UI, Ant Design and Tailwind CSS. Proven ability to collaborate in Agile environments using GitHub for version control and Postman for API testing, delivering maintainable, high-quality solutions. Actively seeking opportunities to contribute to impactful and growth-oriented projects.

EXPERIENCE

Software Developer | Carmel Info System (freelancing)

Dec 2025 – Present

- Developing and maintaining a responsive customer and vendor portal for a logistics support system using React.js, Material UI, Tailwind CSS, and Ant Design.
- Implemented dynamic workflow features including ticket management, AMC validation, vendor assignment, quotation approval, and real-time status tracking.
- Integrated REST APIs, optimized UI performance, and ensured seamless deployment on AWS with scalable architecture support.

Software Developer | Bayanat Technology (Al Madina, Middle East)

Mar 2025 – Dec 2025

- Developed and maintained a full-stack logistics management application for Al Madina, the largest logistics provider in the Middle East, utilizing React.js, Material UI, Tailwind CSS, and Ant Design for front-end development.
- Engineered robust back-end solutions with Node.js and Express.js, ensuring seamless integration with MySQL databases and optimizing data retrieval processes for improved performance.
- Deployed applications on AWS, implementing best practices for cloud infrastructure management and ensuring high availability and scalability of services.

Front End Developer (Internship) | KAS Global Commerce Inc

May 2024 – Aug 2024

- Built responsive web interfaces using HTML5, CSS3, JavaScript (ES6+), and React.js.
- Integrated REST APIs and optimized UI performance to deliver a smoother user experience.
- Collaborated using GitHub for version control and utilized Postman for API testing.
- Gained hands-on experience in frontend architecture, component-based design, and code reusability.

PROJECTS

- **KML Portfolio:** ([Live Demo](#)) -Freelancing project Portfolio website showcasing Kicks Media services and company details.
Technologies Used: React.js, JavaScript, HTML, Tailwind CSS
- **E-Commerce Application:** ([Netlify Demo](#)) ([GitHub](#)) - Self-created e-commerce application with global state management using Redux Toolkit.
Technologies Used: React.js, JavaScript, HTML, Tailwind CSS, Redux Toolkit
- **RentIt Support Service Management:** ([Netlify Demo](#)) ([GitHub](#)) - Freelancing project - Carmel Info System involving end-to-end development of an admin dashboard with vendor, customer portals, master data, and service management modules.
Technologies Used: React.js, REST APIs, JavaScript, HTML, CSS, Material UI (MUI), Redux Toolkit, REST API

SKILLS

Frontend : JavaScript (React.js, React Native), HTML, CSS, Material UI, REST APIs, TanStack Query, Redux, Tailwind

Backend : Node.js, SQL (MySQL)

Version Control : Git, GitHub

EDUCATION

SNDT Womens University

Bachelor of Computer Applications (BCA)

2023 | Mumbai
